

**Long Activity**  
**Ages 6–8**  
**30 minutes**

## Canadian Wildlife Sounds

---

### Description

Use our PowerPoint trivia presentation for kids to guess animal sounds.

### Competencies

- Working collaboratively
- Social interaction
- Understanding and appreciation of animals

### Materials

- Canadian Wildlife Trivia presentation [[Click to Download](#)]
- Laptop
- Projector (for large groups)
- Speakers
- Animal cards template

### Preparation

- Download the PowerPoint presentation
- Print out copies of the animal card templates, one for each team
- If desired, cut out the animal cards

### Implementation

1. Divide the kids into teams of 2-5 participants
2. Provide each team with the animal card template or a set of the 20 animal cards cut out
3. Open the PowerPoint trivia presentation, click on the Slide Show tab, and click "From Beginning" to play the presentation
4. Click the speaker icon to play the first animal sound
5. Give each team 30 seconds to 1 minute to come to a consensus answer

6. Each team identifies which animal they believe made the sound (either verbally or by showing the card)
7. Click to the next slide, which builds a bit of drama by showing the answer after a 10 second countdown
8. Advise the teams that each animal will only come up once in the presentation, so once the animal has appeared, they can turn over that card or cross it out on the sheet
9. If desired, keep score in any way that you find suitable
