15–20 minutes

Olympic Trivia

Description

A downloadable PowerPoint presentation with Olympic trivia

Space Considerations

An indoor space where you can set up a laptop and projector

Competencies

- Working collaboratively
- Teamwork

Materials

- Laptop, tablet or computer with access to PowerPoint
- Projector
- Speakers
- Paper for printing answer cards

Preparation

- Download the Olympic Trivia PowerPoint presentation. If desired, you can remove slides for questions that you don't want to include. You may also add trivia questions.
- Download and print the answer letter cards. (One set per team.)

Implementation

1. Divide the participants into teams of 2 to 4.
2. Distribute one set of answer letter cards (A, B, C, D) to each team.
3. Play the PowerPoint presentation. There are 12 questions. All teams must hold up their answer card before you advance to the answer screen. *Note:* Each slide on the PowerPoint presentation contains audio, including the

reading of all written questions and answers, for kids who may have trouble reading the screen. You may also read the questions out loud instead of playing the audio.

4. If desired, you can keep score for this game.

Accessibility Considerations

- There are several audio clues for participants and each of the written clues includes a speaker that will play text to speech.
- Allow participants or teams to provide their answer in the way that is most suitable for them. For example, holding up the answer card or saying their answer verbally.
